1. [REDACTED] talked to me about appearing as a guest speaker at the annual convention of the International Chiefs of Police in Honolulu in October. I asked them to tell the Director that I was willing but not enthusiastic about going to Honolulu and suggested that Gates Lloyd might stop by there on his way home from the Far East and do this chore. Jack advised me later that the Director had suggested that [REDACTED] go out and deliver the speech and that Dick had the matter under consideration.

2. Met with Shef Edwards and [REDACTED] concerning the security protection for the first and second floor windows of the new building. It was agreed that we would need grills on most of these windows and that they should be placed on the inside of the window frames. It was also decided that Harrison & Abramovitz should design the window sashes and grills. However, it may be necessary to exclude the actual purchase of the grills from our construction contract and buy them out of other funds. H

3. Talked to Jim Garrison on several occasions about the construction contracts in [REDACTED] for the [REDACTED]. He will, of course, have great difficulty in obligating the funds even at this late date. (On Saturday the Director discussed this matter with me. He definitely has not signed off on this project; in fact, he sent for General Cabell and a considerable discussion of the whole [REDACTED] in Europe took place. The Director is certainly anything but enthusiastic about it, and, at the moment, there is serious question as to whether this Program will go forward in Europe at all.) 25X1X4 25X1X4

4. With Stan Grogan attended the opening of the exhibit sponsored by the General Services Administration in The Octagon featuring "100 Years of Federal Architecture."
